|                    |                                |  | meanings<br>of the<br>various     |  | see how we use them.   |                                  |
|                    |                                |  | types of                          |  |  |                                  |

| Conditional |
|-------------|
| Sentences.  |

3. Pupils in small groups distinguish between the types of Conditional sentences.

#### Closure

Through questions and answers, conclude the leson.

#### The Zero Conditional

We use the zero conditional to talk about permanent truths, such as scientific facts, and general habits. The structure is simple:

| If + present simple, | present simple. |
|----------------------|-----------------|
| 50% possibility      | 100% certainty  |

Here are some examples:

If you **heat** water to 100°, it **boils**.

If you eat a lot, you put on weight.

If it doesn't rain for a long time, the earth **gets** very dry.

If we **go out** with friends, we normally **go** to a restaurant.

If I'm tired, I go to bed early.

|  | The First Conditional  We use the first conditional to talk about a realistic situation in the present or future.  The structure of the first conditional is as follows: |  |
|--|--|--|
|  | If + present simple,  If + present simple,  must + verb  imperative form  50% possibility  100% certainty  |  |
|  | Here are some examples:  |  |
|  | If you're free later, we can go for a walk.  If they're hungry, I'll make some sandwiches.  If you're not back by 5pm, give me a ring.                                   |  |
|  | If he <b>studies</b> hard, he' <b>ll do</b> well in the exam.  |  |

|  |  | If we arrive late, we must get a taxi.          |  |
|--|--|---|--|
|  |  | He'll call if he needs help.                    |  |
|  |  | Take a break if you're tired.                   |  |
|  |  | Another way to make first conditional           |  |
|  |  | sentences is to use 'unless' which means        |  |
|  |  | 'only if' or 'except'. As with 'if', the word   |  |
|  |  | 'unless' can never be followed by 'will' but    |  |
|  |  | only by the present simple. For example:        |  |
|  |  | Unless you hurry up, you won't catch the bus.   |  |
|  |  | I'll carry on doing this work, <b>unless</b> my |  |
|  |  | boss <b>tells</b> me to do something else.      |  |
|  |  | We'll stay at home <b>unless</b> the            |  |
|  |  | weather improves.                               |  |
|  |  | The Second Conditional                          |  |
|  |  |   |  |
|  |  | We use the second conditional to talk about     |  |
|  |  | improbable or impossible situations in the      |  |
|  |  | present or future. Here is the structure:       |  |
|  |  |   |  |

| <u> </u> |  |   |                                   | 1 |
|----------|--|---|-----------------------------------|---|
|          |  | If + past simple,                                     | would + verb<br>could + verb      |   |
|          |  | 0-5% possibility                                      | 100% certainty                    |   |
|          |  | For example:  |                                   |   |
|          |  | If I <b>had</b> more time,                            | I' <b>d exercise</b> more. (But I |   |
|          |  | don't have more tir                                   |                                   |   |
|          |  |   |                                   |   |
|          |  | If I were rich, I'd sp                                | <b>end</b> all my time            |   |
|          |  | travelling. (But I'm                                  | not rich so I can't.)             |   |
|          |  | If she <b>saw</b> a snake,                            | she' <b>d be</b> terrified.       |   |
|          |  | If he didn't have to                                  | work late, he <b>could</b>        |   |
|          |  | <b>go</b> out with his girlf                          |                                   |   |
|          |  |   |                                   |   |
|          |  | What <b>would</b> you <b>do</b>                       | if you <b>were</b> offered a job  |   |
|          |  | in Canada?  |                                   |   |
|          |  | You <b>wouldn't have</b><br>you <b>bought</b> a bike. | <b>to</b> walk everywhere if      |   |

| exa                                   | ample:  |
|                                       |   |
| A: I                                  | I've got a headache.                          |
| l l l l l l l l l l l l l l l l l l l | If I were you, I'd take an aspirin.           |
|                                       | ij i were you, i u tuke an aspirm.            |
| A: I                                  | I don't understand this.                      |
|                                       |   |
| B: <i>I</i>                           | If I were you, I'd ask your teacher for help. |
|                                       | This order won't be delivered on time.        |
|                                       | This order won't be delivered on time.        |
| B: <i>I</i>                           | If I were you, I'd phone the customer to let  |
| the                                   | em know.                                      |
|                                       |   |
| The                                   | e Third Conditional                           |
| l wa                                  | a use the third conditional to talk about     |
|                                       | e use the third conditional to talk about     |
|                                       | possible situations, as in the second         |
| I CON                                 | nditional, in the past. We often use the      |

|  | third conditional to describe regrets. The structure is:    If + past perfect,   would have + past participle could have + past participle |
|--|--|
|  | Here are some examples:  If we had left earlier, we would have arrived on time.  |
|  | If you hadn't forgotten her birthday, she wouldn't have been upset.  |
|  | If they had booked earlier, they could have found better seats.  If I hadn't learnt English, I wouldn't have                               |
|  | got this job.  What would you have studied if you hadn't   |
|  | done engineering?  |

|  | 1 | <u> </u> |                                  |                             |  |
|--|---|----------|----------------------------------|-----------------------------|--|
|  |   |          | They wouldn't have hir           | ed you if you hadn't        |  |
|  |   |          | had some experience al           | broad.                      |  |
|  |   |          |                                  |                             |  |
|  |   |          | You could have helped            | me if you' <b>d</b>         |  |
|  |   |          | stayed later.                    |                             |  |
|  |   |          |                                  |                             |  |
|  |   |          | Mixed Conditionals               |                             |  |
|  |   |          |                                  |                             |  |
|  |   |          | It's possible to combine         | the second and third        |  |
|  |   |          | conditional in one sent          | ence when we want to        |  |
|  |   |          | make a hypothesis abou           | ut the past that has a      |  |
|  |   |          | consequence in the pre           |                             |  |
|  |   |          |                                  | sent. In this case, the     |  |
|  |   |          | structure is:                    |                             |  |
|  |   |          |                                  | would I work                |  |
|  |   |          | If + past perfect,               | would+ verb                 |  |
|  |   |          | ii - pust periest,               | could + verb                |  |
|  |   |          |                                  |                             |  |
|  |   |          | 0% possibility                   | 100% certainty              |  |
|  |   |          | 0 /0 possibility                 | 100 /0 Certainty            |  |
|  |   |          |                                  |                             |  |
|  |   |          |                                  |                             |  |
|  |   |          | Here are some example            | 2S:                         |  |
|  |   |          | If would about ad house as       | المنام مهم ما المرابعين     |  |
|  |   |          | If you' <b>d studied</b> harder, | you <b>a be</b> at a nigner |  |
|  |   |          | level now.                       |                             |  |
|  |   |          |                                  |                             |  |

|                |                    |                          |                  |    |          | We' <b>d be</b> lying on a beach now if we <b>hadn't</b> |                 |
|----------------|--------------------|--------------------------|------------------|----|----------|--|-----------------|
|                |                    |                          |                  |    |          | missed the plane.  |                 |
|                |                    |                          |                  |    |          |  |                 |
|                |                    |                          |                  |    |          | They'd have much more confidence if                      |                 |
|                |                    |                          |                  |    |          | they <b>hadn't lost</b> so many matches.                 |                 |
|                |                    |                          |                  |    |          |  |                 |
|                |                    |                          |                  |    |          | What would you be doing now if you hadn't                |                 |
|                |                    |                          |                  |    |          | decided to study?  |                 |

| Closure Through questions and answers, conclude the lesson. | Characters are essential to a good story, and it is the main characters that have the greatest effect on the plot or are the most affected by the events of the story. The different types of characters include protagonists, antagonists, dynamic, static, round, flat, and stock. |
