BASIC 8

WEEKLY LESSON PLAN – WEEK 2

Strand:	Environment	Sub-Strand:	Mapping Skills		
Content Standard:	B8.1.3.1 Demonstrate skills in sketching maps and interpreting landscapes from map				
Indicator (s)	B8.1.3.1.1 Sketch maps and interpret landscapes from maps	Performance Indicator: Learners can describe the uses of Maps.			
Week Ending	07-07-2023				
Class	B.S.8	Class Size:		Duration:	
Subject	Social Studies				
Reference	Social Studies Curriculum, Teachers Resource Pack, Learners Resource Pack, Textbook.				
Teaching / Learning Resources	Poster, Chart, Video.	Core Competencies:		<ul style="list-style-type: none"> • Personal Development and Leadership • Critical Thinking and Problem solving. • Communication and Collaboration. 	
DAY/DATE	PHASE 1 : STARTER	PHASE 2: MAIN			PHASE 3: REFLECTION
TUESDAY	Discuss the meanings of Map, sketch and Plan with the Learners.	<ol style="list-style-type: none"> 1. Learners brainstorm to identify the features of a sketch Map. 2. Assist Learners to identify the types of sketch map. 3. Using Poster and Pictures, assist Learners to identify examples of sketch map. <p>A map is a figurative representation of selected characteristics of a place, usually depicted on a flat surface. They present evidence about the world in a simple, optical way. They inform us about the world by showing the sizes and shapes of countries, locations, and distances between places.</p> <p>A sketch map is a rough drawing of an area. It is drawn without scale.</p> <ul style="list-style-type: none"> - They are simple drawings of the landscape. They show things that are hidden in photographs or maps. - These maps are drawn from the same viewpoint as a vertical aerial photograph. They usually show the main characteristics of an area and are not cluttered with unnecessary detail. 			Learners brainstorm to sketch a map of the school compound. <p>Exercise;</p> <ol style="list-style-type: none"> 1. Differentiate between Map and Sketch Map. 2. State 3 types of sketch Map

		<p>- Sketch maps are free hand maps drawn on blackboard to present geographic ideas and facts clearly and forcefully.</p> <p>- Sketch mapping reduces unrelated detail and maximizes crucial geographic points. Thus such maps are the absolute in geo-graphic simplification.</p> <p>Features of a Sketch Map;</p> <ul style="list-style-type: none"> • Category • Shape • Name • relative size of each object • quantity and spatial relationships—such as topological, ordering and location relationships. <p>Types of Sketch Map;</p> <ul style="list-style-type: none"> ▪ procedural route maps ▪ allocentric-survey maps ▪ egocentric-survey maps. 	
WEDNESDAY	Review Learners knowledge on the previous lesson.	<ol style="list-style-type: none"> 1. Discuss with Learners on the uses of a Map. 2. Assist Learners to explain the importance of a Map. 3. Learners in small groups to discuss and report to the class on the advantages and disadvantages of using Maps. <p>Uses of Maps;</p> <ol style="list-style-type: none"> 1. It helps people get to their destinations successfully; The kind of map used in this case is the general reference map. This map helps tourists who are new to a particular region get to their destination with ease if they read the map carefully and follow the directions. 2. Used to display geographical concepts The kind of map used in this case is the thematic map. It is used to display and know the relative humidity, density, gradients, and spatial relationships between areas or movements. 3. It is used to locate or identify danger at sea A navigation map or chart is what is being by sailors at sea. With the aid of the chart or map, they would be able to avoid danger in the sea, like avoiding clashing with other ships in a humid condition or avoiding hitting large underwater rocks that would damage the ship. 4. Used in knowing the boundaries of the land 5. Used by bikers and trailers to easily identify pathways The kind of map used in this case is called the trail 	<p>Through questions and answers, conclude the lesson.</p> <p>Exercise;</p> <ol style="list-style-type: none"> 1. State 4 uses of Maps 2. Explain 3 importance of using Maps.

map. It is used by hikers and trailers who would always find themselves in conditions where they would need pathways through villages, around mountains, or rivers so they can get to their finishing point.

6. to show and identify or parcels in a city or country; There are times where you would need maps to identify parcels of land in a city or geographical area to get information concerning it. This kind of map is called the assessor's map and it is mostly used by government heads or leaders

7. Used to prevent

advantages and disadvantages of Map

Advantages

Disadvantages

Helps with Navigation

Can Be Inaccurate

Provides Information

Can Be Misleading

Helps with Planning

Can Be Confusing

Can Help Solve Problems

Can Be Expensive
