BASIC 7

WEEKLY LESSON PLAN – WEEK 2

Indicator (s)	B7.5.1.1.1: Identify drawing materials, instruments and equipment used for Graphic Communication B7.5.1.1.2: Identify the types of lines used in Graphic Communication			Performance Indicator: Learners can use drawing materials, tools and equipment.	
Week Ending	10-05-2024				
Class	B.S.7	Class Size:		Duration:	
Subject	Career Technology				
Reference	Career Technology Curriculum, Teachers Resource Pack, Learners Resource Pack, Textbook.				
Teaching / Learning Resources	Poster, Pictures, Video.		Core Competencies:	• Graphic communication skills • Manipulative skills • Maintenance culture	
DAY/DATE	PHASE 1 : STARTER	PHASE 2: MAIN			PHASE 3: REFLECTION
MONDAY	Show drawing tools and materials to the Learners for identification.	1. Assist Learners to explain the meaning of Graphic Communication. 2. Learners brainstorm to mention five (5) materials, instruments and equipment used for making Graphic Communication. 3. Demonstrate how to care for and maintain the drawing materials and instruments/equipment. What is Graphic Communication? Graphic Communication is the art of working with text and images to communicate ideas using a wide variety of techniques; design for print, typography or branding for example. These are chosen to meet a specific brief, which could be for advertising, packaging, books or posters, to name but a few. Definitions:- • Graphic communication as the name suggests is communication through graphics and graphic aids . It is the process of creating , producing, and distributing material incorporating words and images to convey data, concepts and emotions. Material, Instruments and Equipment used for Graphic Communication; i. Pencil ii. Paper iii. Poster Colors iv. Stylus and Graphics tablet v. Computer vi. Smartphone viii. Drawing board ix. rule x. pair of divider <td> Reflect on how materials, instruments and equipment are used for making Graphic Communication. Exercise; 1. What is Graphic Communication? 2. State 5 materials, instruments and equipment used for making Graphic Communication </td>			Reflect on how materials, instruments and equipment are used for making Graphic Communication. Exercise; 1. What is Graphic Communication? 2. State 5 materials, instruments and equipment used for making Graphic Communication

		vii. Brush etc.  Discuss with Learners the uses of drawing materials, instruments and equipment.	
THURSDAY	Review Learners knowledge on the previous lesson.	1. Assist Learners to discuss how to care for and maintain drawing materials, instruments and equipment. 2. Assist Learners to practice cleaning and caring for drawing materials, instruments and equipment. 3. Learners brainstorm to state Precautions to be taking when using drawing materials, instruments and equipment. IDENTIFICATION OF DRAWING MATERIALS AND THEIR USES • Drawing Board – used for sketching and drawing objects. • Tee- square – used to draw horizontal line. • Ruler – used to draw straight line. • Compass – used to draw circle or arc. • Set square – used to draw vertical line. • Protractor – used for measuring and drawing Angles. Caring for drawing materials, tools and equipment; 1. Avoid dropping your tools and equipment. 2. Never use measuring tools in cutting paper. 3. Wipe off the surface and edges of triangles and T-squares. 4. Sharpen and store your pencils properly after use. 5. Find or create an organizer where you can hang your measuring tools.	Through questions and answers, conclude the lesson. Exercise; State 5 precautions to be taken when using drawing materials, instruments and equipment.
